

GRUNDIG

made for you

Grundig sets new standard in style with the stylish 32" Misuro HD. . .

Grundig has introduced a 32" LCD TV to its highly popular Misuro HD LCD TV collection. The 32" will be available in an elegant high gloss white and piano black finish.

Boasting a fully integrated High Definition Digital tuner and DVD player, this convenient combo negates the need for a set top box or DVD player and reduces the problem of unsightly leads.

An exemplary example of being beautiful on the inside as well as the outside, the Misuro HD collection features exceptional picture quality combined with many features.

Simple to use with an automatic set-up, the 32" Grundig Misuro HD's include two HDMI inputs plus remote control. All models in the range can be wall mounted or come complete with swivel stand for tabletop positioning.

Additional sizes already available in the Misuro HD family include the convenient 15.6", 19" and 22" boasting the exciting colourways of fire red and midnight blue, as well as the traditional piano black and high gloss white finish – each providing customers with an array of choices to suit their personal style and complement their interior décor.

The colourful Misuro HD's will add a splash of colour to any room in the house and allows you to match or contrast your TV with your home furnishings – a benefit for those focused on their home décor or wishing to make a designer statement.

The 15.6", 19" and 22" Misuro HD's include one HDMI input and come complete with a 12 volt power adaptor, making them ideal for use in caravans or boats.
