

# Digital Radio

DAB+ Digital Radio is finally here!

If you already own a DAB+ receiver you will need to remove the test stations by performing a factory reset. This can be performed in the following ways:

## **Bush BR10DAB**

Hold down the Menu button, and if will prompt: Press INFO to confirm reset. Press the INFO button, and the radio will reset and rescan for DAB+ stations

## **Grundig Models**

Press the Radio Menu Button on the unit, select Main Menu using the arrows and then select Factory Reset. Press the INFO button and the radio will reset and rescan for DAB+ stations. Once the radio has reset, the user will then need to select Full Scan from the Main Menu.

## **Revo Models**

Press the Menu Button on the unit, select Main Menu using the arrows and then select System Setup, then select Factory Reset. Press the INFO button and the radio will reset and rescan for DAB+ stations
