

Grundig Introduces Luxe New HD Set Top Box with DVD Player just \$149!

Grundig today announces the arrival of its amazing new High Definition Digital Set Top Box with integrated DVD Player. The innovative combo arrives just in time as Regional South Australia switches off and as the countdown for Regional Victoria begins. It is the perfect and most efficient way for those switching off (North Central Victoria, Goulburn Valley / Upper Murray, Gippsland and South west Victoria) and those still to switch, The GSTB3110DVD provides stress free functionality and endless possibilities when it comes to utilising their television experience.

The reasonably priced Grundig model (just \$149) utilises the Grundig digital technology and features including; easy to use navigation, access to over 15 high definition digital TV channels providing more entertainment, upscaling to 1080i for amazing digital quality picture and finally digital audio via the SPDIF Coaxial Output so users can connect to their surround sound system for a true cinema experience.

'The new Grundig Set Top Box combo makes upgrading to digital more beneficial than ever before. The integrated DVD Player allows for minimalistic easy technology. The dual component (HD Tuner and DVD Player) allows you to de-clutter your home entertainment space – with fewer boxes, more space, and one remote. Making the move to high definition digital TV a no brainer' says Brian Rodgers, Sales Director.

The Grundig GSTB3110DVD provides users with both a High Definition Digital Set Top Box and Integrated Multi-Format DVD Player, so it will provide hours of entertainment for the whole family - whether that's watching your favourite DVDs or you favourite digital TV channels.
