Grundig Launches its First DAB+ Micro System

Grundig today announces the arrival of its first DAB+ Micro System and one of the first in Australia. The GMS558DABIP Touch Panel Micro leads the pack with innovative features and modern design, the future of digital is brighter than ever.

The Grundig GMS558DABIP Touch Panel DAB+ iPod Docking CD Micro Systems, key features include just that; full iPod functionality, DAB+ & FM radio, CD player and an Auxiliary Input. So whatever your music medium/audible pleasure, it is only a remote click away.

Digital radio is proving itself as the newest, most exciting and very popular way for Australian listeners to tune into their favourite radio stations. 100,000 consumers can't be wrong and with exceptionally high sound and signal quality, digital radio offers you everything you already love about radio and more.

At an exceptionally competitively price of just \$299, it has never been easier for consumers to own such a high quality, cutting edge sound system.

So whether your revolution entails entertaining guests, keeping up with the score, enjoying a soulful night in with a bottle of red or rocking it out hard locked in your room, the Grundig Touch Panel DAB+ Micro System will provide you with everything you need.

The Grundig GMS558DABIP Touch Panel DAB+ iPod Docking CD Micro System features include:

- iPod Docking CD Micro System
- DAB+/FM Radio with 20 Station Presets
- Charges and Plays Music from the iPhone
- Touch Panel Operation
- Dual Line Dot Matrix LCD Display
- 5 Preset EQ Settings
- Sleep Timer Function
- CD/CD-R/CD-RW/MP3/WMA Compatible
- 3.5mm Headphone Jack
- Auxiliary Input
- 2 x 10W Power Output
- Full Remote Control
- **RRP \$299**

Plus Grundig's breakthrough digital radio range offers crystal clear sound and reception, a wider variety of stations (now with High Voltage dedicated to playing AC/DC all day) and the added bonus of RDS Scrolling Text so you get more than ever before. The choices are now abundant.
