

GRUNDIG

For immediate release:

Grundig's new glossy white range of LCD TV's, provide stylish, compact solutions for second rooms and apartments

Quick to recognise the trend of the iPod's love affair with the sleek glossy white finish, Grundig is about to launch an extraordinary new range of designer LCD TV's, with integrated Digital DVBT and DVD, that will complement any modern home.

Consumers will no longer be restricted with a choice of black or silver and can make a designer statement with these stunning TV's which also boast the latest, state of the art technology and exceptional quality....

With LCD TV's now setting the standard for TV viewing and no one in the house wanting to watch their favourite programme on the old "box", Grundig's brand new range of affordable LCD TVs also include compact models that incorporate integrated Digital DVBT and a DVD which are ideal for a second living area or bedroom.

GRUNDIG GLCD1905WHT 19" Widescreen Digital LCD DVD TV – RRP \$759.00.

The new range of white gloss Grundig LCD TV's are ultra compact, sleek to look at and they boast high quality speakers and even an integrated Digital DVBT and a DVD player so you don't have to go to the additional expense of a set top box or a DVD!

Simple to use with an automatic set up system, they come complete with the latest quality LCD display technology, 2 x 3W Speaker output, remote control and a 12 volt adaptor for use in caravans and boats.

Also available in the **GLCD2205WHT is the 22" model for RRP \$899.00.**

These compact TVs with integrated Digital DVBT and DVD present an affordable, all in one entertainment solution making them a great idea for second living areas or bedrooms.
