GRUNDIG DELIVERS DIGITAL AGE WITH A CHARGE

On the cusp of creativity and innovation, Grundig's revolutionary range of digital radios offer listeners crystal clear sound, higher quality reception, more stations and a design so original it's mesmerising. Ranging from \$199 to \$299 in price, each model is jam packed with a number of impressive features, giving you more bang for your buck.

Digital radio is the listening wave of the future – it allows access to extra channels specific to individual music tastes, including Koffee, Nova Nation, Radar and Triple J Unearthed.. If the scrolling text information and CD quality sound aren't reason enough to join Grundig's digital revolution, the option of a rechargeable or solar charged radio definitely seals the deal..

Leading the pack is Grundig's new Gener8 Portable DAB+ Radio, which features a lithium rechargeable battery pack that will play for up to 10 hours.

For the more eco-conscious, the Gener8Sol offers listeners the same DAB+ radio capabilities, with a green twist. This super trendy radio is solar powered, with the same rechargeable capabilities as the Gener8.

The Gener8 Series provide amazing sound quality, and allow you to connect your iPod or MP3 player for the ultimate listening experience. Why not plug in your headphones for when want to relax. The Grundig Gener8 and Gener8Sol are available now from leading retail stores.

Retailing at \$199, the Gener8's full specifications include:

- Portable DAB+ Radio
- DAB+/FM Radio with 20 Station Presets
- Backlit Dual line LCD Display with Icons
- Scrolling Text Information
- DAB+ Station Auto Tune
- Auxiliary Input to Connect iPod/MP3 Player
- Headphone Socket
- Powered by Mains / Rechargeable Battery
- 2W Mono Speaker with D-Class Digital Amplification
- Rechargeable Battery Pack with 10 Hours Battery Life

Retailing at \$259 Gener8Sol's full specifications include:
