

Grundig Launches First LED LCD Range - Vanto!

Digital Specialists, Grundig today announce the arrival the Vanto LED LCD TV range, the first for Grundig. The Vanto Series has been designed to provide a range of sensational small screen LED LCDs that are innovative, eco-friendly and beautifully designed. They are sure to illuminate the imagination with their amazing picture quality.

The Vanto 19" and 22" utilises the best edge-lit LED LCD technology - making the TVs extremely reliable with longer life spans and allowing for super slim 35mm design. The Vanto LED LCDs are also more sustainable and energy efficient with an energy star rating of 6.

"LED LCDs are the way forward for the TV industry as they are a much more efficient product and will provide consumers with a great viewing experience whilst as a nation we move closer to a completely digital home" say Brian Rodgers Bush Australia Sales Director.

"Our Vanto small screen range is fantastic for families looking for a fantastic quality product to upgrade their home and the 19" and 22" sizes are perfect for upgrading the second or third TV".

The first LED LCD in the series is the GLED1907HD, which is perfect for any bedroom or kitchen. The super slim design allows it to be displayed in even the tiniest of places. The High Definition Tuner provides access to all high definition digital TV channels and the digital audio output ensures you get the best quality sound to go along with the amazing picture.
