## Rippers set to revive CD and even vinyl collections

Not wanting to get left behind in the technology stakes, even dad's these days will appreciate the convenience of being able to compress their entire CD or vinyl collection into a pocket-sized format at the press of a button using one of Grundig or Bush's affordable, new, micro hi-fi systems with CD rippers. The CD ripper extracts the digital audio on compact discs and converts it to an MP3 format which can be stored on a USB.

Bush even has a one-stop solution for dad's treasured vinyl collection with an all-in-one system that first converts vinyl to MP3!

Grundig which is renowned for its sleek European styling and excellent sound systems has launched a ripping micro hi fi system.

At the top of the range is the Grundig's **UMS555 CD Micro system** Its compact size defies its wealth of features which includes one touch recording from CD or Tuner to USB device or SD/MMC card in MP3 format. It also delivers exceptional sound quality through a 2 x 25W speaker system. Grundig's UMS555 comes complete with AM/FM RDS tuner with 75ohm antenna connection, top loading CD player, Cd-MP3 playback, USB and SD/MMC card slot for MP3/WMA playback for just \$299 rrp.

Bush which established its reputation for innovation in audio back in 1932, continues to prove its audio-cred with its **MC001 DVD MICRO system** This impressive system features CD ripping to USB, LCD display, DVD/MP3/VCD/CD/CD-R/CD-RW/DVD+/-R/DVD+/-RW/Kodak picture CD

compatible, FM Auto/Manual digital tuning system, automatic screen protection/screen saver, parental lock function, adjustable screen aspect ratio (4:3 or 16:9), S-video/Component video output/Composite video, 2ch, 2x10w, Dolby Digital AC-3 2.0 coaxial output and a remote control. Affordable priced at just **\$159** rrp, the Bush MC001 DVD micro system makes it possible for those on a budget to have it all!

**Bush is also about to breath new life into classic vinyl collections with its RPA3 Turntable and radio with CD player & USB,** With this easy-to-operate all in one system, you can dust off the old vinyls, give them a spin on the turntable and record them to your MP3 player in MP3 format through the encoding function from CD/Turntable to USB/SD. Bush's RPA3 incorporates a CD/MP3 with Turntable & FM/MW Radio, LED Display, SD & MMC Card Slot, 2 -way wooden Speaker Boxes, 2 x 2W RMS speaker

output. At just **\$199 rrp**, the Bush RPA3 will provide the ultimate excuse to introduce your favourites on vinyl to a new generation.
